PROFESSIONAL EXPERIENCE

SAP ABAP Consultant | Jobbie, India

13th March 2023 – Present

Project Description:

A farming related portal, where the distributors placed orders, see the delivery status, get invoices of the documents, and much more i.e. connected to salesforce and has SAP in the Backend.

Worked on:

- Collaborated with functional consultants to **architect process flows** for business, contributing to solution design, proof of concept and aligning with client needs.
- Developed **VOFM output processing routines** to trigger condition records upon PGI/PGR completion and order processing post-Salesforce inbound order IDoc integration.
- Created **change pointer programs** to trigger a condition record when there are any changes in the specified fields in the sales order.
- Developed logic to send the OTF data generated from the smart forms to CPI via proxy for Orders, Delivery, Invoice, Credit Note, Debit Note and Return delivery flow, so the end user can see the PDF in the portal.
- Programmed a **web service** to calculate and display net price, gross price, tax, discounts, surcharges, and freight pre-sales order creation for the B2B e-comm portal.

SAP ABAP Senior Analyst | Jobbie India

2nd Nov 2020 - 3rd March 2023

Project Description:

A marketplace for electronics related products like the Amazon, specifically designed for B2C Consumers worldwide.

Worked on:

- Extensively worked in **Debugging SAP programs** and IDOC function modules for inbound and Outbound IDoc Processing.
- Creation of Condition records, partner profile, distribution model for **automatic EDI flow** for O2C and P2P process.
- Addressed **IDoc mapping issues** with third-party middleware systems.
- **Created new IDoc extension types** and enhanced existing ones for Ordrrsp, Desadv, and Invoice.
- Mapped IDocs with SAP PI for carrier messages (DPD, HRX, VENIPAK) and TELEMA and Omniva API's.

CERTIFICATIONS, TRAINING & ACHIEVEMENTS

- Topped the training batch in SAP ABAP HANA at Capgemini.
- Completed a Generative AI in SAP course on the OpenSAP learning platform.
